- Collaborate with engineers to design efficient electrical layout for new projects.

Languages

- English
- Arabic
- Urdu

Throughout my career, I have done some of my best work under pressure. I find that routine makes us complacent, and I am always looking for challenges that push me to give my best and to quickly come up with working solutions. I tend to embrace working under pressure because it forces me to become the best version of myself and act in a quick and decisive manner.

EXPERIENCE

Grocery Picker

Danube Central Warehouse – Saudi Arabia
